

Technical Bulletin

Sticklers™ Adhesive & Gel Remover Pen

Product Features:

- Convenient pen dispenser quickly and safely removes adhesives, buffer tube gel (i.e. icky-pic) labels, tape residue, grease, oils and some inks
- Dispenses fluid when pressed onto a surface, ensuring fluid is always used effectively with no waste, spills or odors
- Ideal for datacom, enterprise centers and repair centers

Product Information:

The Sticklers™ Adhesive & Gel Remover pen is ideal for removing label and ink markings during production of cable assemblies and optical networking equipment. The fluid removes stickers, labels, ink, tape residue and other adhesives during repair and relabeling projects.

Excellent for removing buffer tube gel (i.e. icky-pic) from fibers of loose tube cables during fiber prep. Recommended for use in splicing trailers for outside plant construction and cable assembly production to prep fibers for connectorization.

Sturdy pen dispenser is produced from aluminum, recyclable material.

For Best Results:

After removing the buffer tube gel, use Sticklers™ Clean Wipes and Sticklers™ Fiber Optic Splice & Connector Cleaner cleaning fluid to perfectly clean fibers for fusion splicing just before fiber cleaving.

When you need perfectly clean splices & connectors™
